

BOSSAI

每天帮你做好今天最值得发布的视频。

Your AI content team for daily publish-ready videos.

OVERVIEW

BossAI is not another AI tool.

It packages content strategy, scriptwriting, director logic, provider orchestration, asset memory and export into one desktop workflow.

CORE CAPABILITIES

One click. One content package.

- Viral title
- Video script
- Cover copy
- Captions
- Social copy
- Mock or provider video

PROVIDERS

Provider-ready, not model-locked.

Supports BYOK provider strategy: Mock, DeepSeek, MiniMax, Kling, Runway and reserved future providers.

AI DIRECTOR

From business goal to scene plan.

AI Director plans hooks, pain points, methods and CTAs for publish-ready short videos.

MEMORY

Project Memory and Business Context.

Keep brand, audience, offer, prior outputs and reusable context close to the generation workflow.

WORKFLOW

Generate, review, refine, save and export.

BossAI focuses on daily publishing, not complex video editing.

ASSET LIBRARY

All generated materials in one local library.

Scripts, copy, videos and project assets are organized for repeated publishing.

INDUSTRIES

Built for business content.

AI, ecommerce, real estate, insurance, education, legal, beauty, pets, founder IP and knowledge sharing.

PRICING

Starter / Professional / Business / Enterprise.

V1 uses BYOK. SaaS pricing will be separate when Cloud launches.

ROADMAP

Desktop now. Cloud and Mobile later.

V1.0 Desktop Early Access. V2.0 Cloud after validation. V3.0 Mobile and team workflows.
